ROCK-SOLID CLEANING EQUIPMENT

The POSEIDON 7 series are truly heavy duty machines, suitable for all demanding cleaning tasks in industries like agriculture, industry, transport and building/construction. The high water flow of the POSEIDON 7 series makes it very useful for applications where a high level of dirt has to be removed or flushed away.

Very robust machines, they are built on a metal chassis with high quality components. They are the high pressure washers for professionals who depend on a machine that can work day after day out, week after week, year after year.
